

Term Deposit

Product Schedule

Effective: 21 March 2020

This **Product Schedule** along with our **Deposit Account Terms and Conditions** and our **Account Access Terms and Conditions** make up the Terms and Conditions for this account and its access methods. Please read these documents before opening the account. Some words have special meanings which are explained in the **Deposit Account Terms and Conditions** and the **Account Access Terms and Conditions**. If you have any questions please ask us before operating the account.

1. About our Term Deposit

Congratulations on choosing our Term Deposit. This account is designed to give you a secure rate of return. It offers a fixed rate of interest on the fixed amount you have invested, for the investment term you have selected.

2. Key features

This account offers a complete range of investment terms from 21 days up to 5 years. A wide range of interest payment options are available depending on the investment term.

A minimum deposit of \$1,000 is required to open the account.

The **Deposit Account Terms and Conditions** and **Account Access Terms and Conditions** contains important information regarding your Term Deposit, including information about: deposits, withdrawals on the maturity date or during the withdrawal period, withdrawals before the maturity date, what happens on the maturity date of your investment, interest rates calculation and payment of interest and interest being paid to another account. It is important you read these terms in addition to the terms that are in this Product Schedule.

3. Interest

Current Term Deposit interest rates are available by contacting us or at newcastlepermanent.com.au/rates. We will advise your interest rate at the time you open your account or reinvest and the rate will be confirmed to you after you open your account or reinvest with us.

Payment options are as follows:

Terms	Interest payment options
21 – 75 days	at maturity only
76 – 345 days	monthly or at maturity
346 – 385 days	monthly, quarterly, half yearly or at maturity
1 – 5 years	monthly, quarterly, half yearly or annually

Credit interest you earn is worked out using the annual rate divided by 365 on the daily closing balance. You must choose how often to be paid interest at the time you open your account. Interest payment options are as follows:

at maturity	interest is paid at the end of the term into your account or into another eligible account
monthly	interest is paid each month on the same day of the month as your initial deposit and on the day of maturity into another eligible account
quarterly	interest is paid every 3 months on the same day of the month as your initial deposit and on the day of maturity into another eligible account
half yearly	interest is paid every 6 months on the same day of the month as your initial deposit and on the day of maturity into another eligible account
annually	interest is paid every 12 months on the same day of the month as your initial deposit and on the day of maturity into another eligible account

If the payment date falls on a day where there is no such date in the current month (for example 29th, 30th, or 31st) the payment will be made on the next business day.

If you keep your initial investment for the entire investment term and do not make any withdrawals, you will receive interest at the fixed rate disclosed when you open the account for the entire investment term. However, in some circumstances your return may be less. Details are provided below and in the Deposit Account Terms and Conditions.

If you withdraw your funds prior to the maturity date, including before the maturity date of any subsequent term, we will be entitled to reduce the interest rate payable on your investment. We may also deduct any unpaid fees, interest paid and charges applicable.

If you withdraw part or all of your funds during the withdrawal period (i.e. the seven days immediately after the maturity date) we will be entitled to reduce the interest rate payable on your investment.

If you make an additional deposit during the renewal period (i.e. the seven days immediately before and the seven days immediately after the maturity date) interest on the additional amount will be calculated from the date of the deposit and paid with the next interest payment.

4. Operating your account

When you open your Term Deposit or if you reinvest at maturity we will communicate with you the details of your investment.

Deposits and withdrawals can be made by contacting us or by any method we allow from time to time.

Please let us know if you would like to register for our personal internet banking service. Our **Account Access Terms and Conditions** details the other services available. Our business internet banking has separate business internet banking rules (which will be given to you at the time you register for business internet banking if you are eligible to receive this service).

Direct debits to a third party account are not available.

Where applicable, we will make available a statement every 6 months, or more frequently if you request, and on account closure. However, we may not if your account has a zero balance and there were no transactions during the statement period.
